TED演讲者: Kashmir Hill and Surya Mattu | Kashmir Hill and Surya Mattu

演讲标题: What your smart devices know (and share) about you | 你的智能设备知道(和分享)关于你的什么

内容概要: Once your smart devices can talk to you, who else are they talking to? Kashmir Hill and Surya Mattu wanted to find out -- so they outfitted Hill's apartment with 18 different internet-connected devices and built a special router to track how often they contacted their servers and see what they were reporting back. The results were surprising -- and more than a little bit creepy. Learn more about what the data from your smart devices reveals about your sleep schedule, TV binges and even your tooth-brushing habits -- and how tech companies could use it to target and profile you. (This talk contains mature language.)

当你的智能设备和你交流的时候,他还会和谁交流呢? Kashmir Hill 和Surya Mattu想要探寻答案——所以他们为Hill的公寓装备了18种不同的联网设备,并且建造了一个特殊的路由器去追踪它们和服务器交流的频率,并看它们传回了什么信息。结果是让人惊讶的——也有点毛骨悚然。了解你的智能设备会揭露你的睡眠时间,喜欢的电视剧,甚至是你的刷牙习惯。看看技术公司如何使用这些研究成果去定位和分析你。(这个演讲包含成人用语)
